## COMMENTS

Foote R2 is a 2400 HU Roundup Ready 2 Yield<sup>®</sup> soybean variety with light pubescence and a bushy architecture. Maturity suits most of the soybean growing regions of Manitoba and the agronomic traits make it a great choice for balancing maturity and yield.

- Mid maturity with great yield
- Matures 2 days earlier than TH33003R2Y, finishes fast
- Bushy plant with lots of pods on branches, but doesn't quite close in 30" rows
- Phytophthora root rot resistance gene Rps1c
