<input checked="" type="checkbox"/>	Phytophthora Field Tolerance Rating :	MR
<input checked="" type="checkbox"/>	Sclerotinia Resistance Rating	Above average
<input checked="" type="checkbox"/>	Iron Chlorosis Rating:	Semi-tolerant(1.8)
<input type="checkbox"/>	Cyst Nematode Gene:	No

COMMENTS

Prince R2X is a bushy, medium height and early maturing soybean. It is set up with a great disease resistance package for major issues faced in western Canada.

- Fills in 30" rows
- Lots of branching with many pods
- Dicamba resistant for tough - to - control weeds like kochia, cleavers, wild buckwheat and ragweed

2018 Soybean Yield by Maturity Data Averaged From Elm Creek and Fort Whyte, MB with a Low Input and High Input Treatment

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. These products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from these products can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for these products. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with products with Roundup Ready 2 Xtend® soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED AND APPROVED FOR SUCH USES. Contact the Pest Management Regulatory Agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans or products with XtendFlex® Technology.

Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Roundup Ready 2 Xtend® soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Bayer retailer, refer to the Bayer Technology Use Guide, or call the technical support line at 1-800-667-4944 for recommended Roundup Ready® Xtend Crop System weed control programs.
